

ARIZA AKMAL SYAHIDA

Full Stack Web Developer

Yogyakarta | arizaakmal04@gmail.com | arizaakmal.site

SUMMARY

Bachelor of Informatics graduate from Universitas Amikom Yogyakarta with expertise in web development. Experienced in building web applications, particularly in backend development using Laravel and Express.js, and frontend development with React. Completed multiple web development bootcamps and built a varied portfolio across different projects. Currently seeking opportunities as a Full Stack Web Developer.

EDUCATION

UNIVERSITAS AMIKOM YOGYAKARTA (2021 - 2025)

Bachelor's Degree in Informatics

- Member of the Web Division, Amikom Computer Club (2021–2022).

EXPERIENCE

Back End Developer Internship (February - June 2024)

LLDIKTI Wilayah V

- Developed the Legalization and Certificate Information System (JANAKA) and the Academic and Student Information System (SADEWA) using the Laravel framework.
- Transformed the diploma legalization process from an in-person service to a digital platform, allowing graduates to submit requests online.
- Implemented core features such as document submission, approval/rejection workflows, and Excel data import functionality using MySQL as the main database.
- Improved data retrieval and application performance by optimizing database queries and backend logic.

Independent Study - Fullstack Web Developer Academy (August - December 2023)

NF Computer

- Built an inventory management system as a Final Project, utilizing Laravel and RESTful API for inventory tracking and management.
- Built web applications using React.js for the frontend and Laravel for the backend.
- Applied web programming concepts across multiple small projects, resulting in enhanced learning and practical experience.
